

B'nai B'rith Europe is deeply shocked

Written by B'nai B'rith Europe

B'nai B'rith Europe is deeply shocked and angry to learn of the terrorist attacks that took place in Boston during the Marathon held on the occasion of the Patriot Day.

First and foremost the victims and their families are uppermost in our thoughts and prayers. May those who survive be granted a speedy recovery and, we extend our heartfelt sympathies to the families of all who died.

We extend to President Obama and the American people our deepest condolences at this time. Let the American people know, that we stand shoulder to shoulder with them in the fight to eradicate terrorism and those who harbour such evil people.
